

## **Tree Planting Program**

The single family homes in The Parks will receive 1 free tree for their front yard. Please refer to the Tree Assignment Plan to find out what tree species you will receive. There are no substitutions or no cash in lieu of tree being offered.

To arrange for your tree, please contact **Wheatland Trees 403-248-3648**. They will inform you of the estimated installation date. Installation will occur after your builder has placed and spread topsoil but before you sod your yard.

The homeowner is fully responsible for the maintenance and watering of the tree immediately upon installation. When your tree is installed you will receive an information sheet with directions on how to take care of your new tree. If you do not receive directions, please call Wheatland Trees 403-248-3648 and they will deliver one to you.

The tree replacement warranty applies only to those trees properly cared for. If in the opinion of Wheatland Trees the tree died due to poor maintenance or incorrect watering, the tree will not be replaced. The replacement warranty is limited - for trees planted prior to July 31st, the warranty expires October 31st of that year, for trees planted after July 31st the warranty expires June 30th of the following year. No warranty is offered on replacement trees.
